Antitrust Policy

All project meetings are subject to the Linux Foundation Antitrust Policy.
The following topics must not be discussed:

- Price-sensitive information
- Actual or projected changes in production, output, capacity or inventories
- Matters relating to bids, prospective bids, or bid policies
- Matters relating to actual or potential individual suppliers that might influence the business conduct of firms toward such suppliers
- Matters relating to actual or potential customers that might have the effect of influencing the business conduct of firms toward such customers
- Current or projected costs of procurement, development or manufacture of any product
- Market shares for any product or for all products
- Confidential or otherwise sensitive business plans or strategy

If you have questions, please contact legal@finos.org

Meeting Notice

- FINOS Project leads are responsible for observing the FINOS guidelines for running project meetings. Project maintainers can find additional resources in the FINOS Maintainers Cheatsheet.
- All participants in FINOS project meetings are subject to the LF Antitrust Policy, the FINOS Community Code of Conduct and all other FINOS policies.
- FINOS meetings involve participation by industry competitors, and it is the intention of FINOS and the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws. Please contact legal@finos.org with any questions.
- FINOS project meetings may be recorded for use solely by the FINOS team for administration purposes. In very limited instances, and with explicit approval, recordings may be made more widely available.

- Special Guest:

FINOS Tech Sprint: Coding Session

Sept before OSFF

Microsoft Offices,
Virtual

Join us for an exciting in-person coding session as part of the ongoing FINOS Tech Sprint until the end of September. Bring your laptops and dive into open source development for the financial services industry. This is a unique opportunity to contribute to building functional proofs of concept and reference architectures for community-vetted use cases that offer real-world value in financial services.

Open Source Readiness Roundtable

Sept 30

New York Marriott Marquis,
NYC, NY

Members of the Open Source Readiness Community have been asking for a round-table event where they can get together in person and talk about how their respective firms tackle open source readiness and so we're glad to announce that we've found time in the schedule to do this prior to OSFF on the 30th September at 10AM, so you can drop in on your way to OSFF.

OSFF registration NOT required

OS-Climate: Physical Risk Workshop

Sept 30

New York Marriott Marquis,
NYC, NY

Join us for an in-depth FINOS workshop where we'll guide participants through the essential elements of the Open Source Climate (OS-C) componentry on GitHub.

This session will cover the fundamentals of understanding and navigating the componentry, accessing and contributing to documentation, and getting started as a user or developer.

OSFF New York

Sept 30 & Oct 1

New York Marriott Marquis,
NYC, NY

The only conference dedicated to driving collaboration and innovation in financial services through open source software and standards.

We bring together experts across financial services, technology, and open source to engage our community in stimulating and thought-provoking conversations about how to best (and safely) leverage open source software to solve industry challenges.

Grace Hopper Celebration 2024

Oct 8-11

Philadelphia, PA
& Virtual

Join us at GHC where a FINOS panel will explore practical steps for **tackling bias in software engineering and Gen AI**, drawing on best practices around **AI Fairness** and **FINOS' AI Readiness project**, which brings together leading FSIs and tech practitioners to develop a responsible Governance Framework & uses case to ensure trust, inclusion and safety are at its heart—raising the bar towards a more equitable and inclusive tech future.
