# Antitrust Policy

All project meetings are subject to the Linux Foundation Antitrust Policy.

The following topics must not be discussed:

- Price-sensitive information
- Actual or projected changes in production, output, capacity or inventories
- Matters relating to bids, prospective bids, or bid policies
- Matters relating to actual or potential individual suppliers that might influence the business conduct of firms toward such suppliers
- Matters relating to actual or potential customers that might have the effect of influencing the business conduct of firms toward such customers
- Current or projected costs of procurement, development or manufacture of any product
- Market shares for any product or for all products
- Confidential or otherwise sensitive business plans or strategy

If you have questions, please contact [legal@finos.org](mailto:legal@finos.org)

# Meeting Notice

- FINOS Project leads are responsible for observing the FINOS guidelines for running project meetings. Project maintainers can find additional resources in the [FINOS Maintainers Cheatsheet](#).
- All participants in FINOS project meetings are subject to the [LF Antitrust Policy](#), the [FINOS Community Code of Conduct](#) and all other [FINOS policies](#).
- FINOS meetings involve participation by industry competitors, and it is the intention of FINOS and the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws. Please contact [legal@finos.org](mailto:legal@finos.org) with any questions.
- FINOS project meetings may be recorded for use solely by the FINOS team for administration purposes. In very limited instances, and with explicit approval, recordings may be made more widely available.

# Agenda

- Announcements & Events
- Looking for Support: DLT Hackathon
- Open Floor Session

# London.JS @ Civo Tech Junction

Sept 3, 6pm BST

Civo Tech Junction,  
Shoreditch, London

Interested in JavaScript networking in London? Attend London.JS for a JavaScript discussion focused on two main topics: 'Why do developers hate writing tests? And are they right?' and application security and APIs.

Sept 11, 11am EST/4pm BST

Virtual

# FINOS All Community Call

Join us on Wednesday September 11th at 11 am ET / 4 pm BST for our virtual Q3 All Community Call where you'll hear updates from the recent governing board meeting, our strategic initiatives, community updates and much more.

# AI Readiness SIG Working Session

Sept 12, 9am EST

Microsoft Offices,  
11 Times Square, NYC  
& Virtual

Join us in NYC or virtually for an exclusive, member-only meet up and working session with AI Readiness Special Interest Group (SIG) members. This event is designed to bring together AI professionals to refine the Simple Governance Framework document draft, where your insights and expertise will help shape its final version. We will also focus on developing a comprehensive roadmap for implementing this framework, laying the groundwork for its contribution to the open source community.

# FINOS Tech Sprint: Coding Session

Sept 12, 1pm EST

Microsoft Offices,  
11 Times Square, NYC  
& Virtual

Join us for an exciting in-person coding session as part of the ongoing FINOS Tech Sprint until the end of September. Bring your laptops and dive into open source development for the financial services industry. This is a unique opportunity to contribute to building functional proofs of concept and reference architectures for community-vetted use cases that offer real-world value in financial services.

# OSFF New York

Sept 30 & Oct 1

New York Marriott Marquis,  
NYC, NY

The only conference dedicated to driving collaboration and innovation in financial services through open source software and standards.

We bring together experts across financial services, technology, and open source to engage our community in stimulating and thought-provoking conversations about how to best (and safely) leverage open source software to solve industry challenges.

# Grace Hopper Celebration 2024

Oct 8-11

Philadelphia, PA  
& Virtual

Join us at GHC where a FINOS panel will explore practical steps for **tackling bias in software engineering and Gen AI**, drawing on best practices around **AI Fairness** and **FINOS' AI Readiness project**, which brings together leading FSIs and tech practitioners to develop a responsible Governance Framework & uses case to ensure trust, inclusion and safety are at its heart—raising the bar towards a more equitable and inclusive tech future.

# Pre-Planning DLT Hackathon

Seamless Data Exchange  
with DLT Experiments

Enhancing Reliability  
& Performance

Protecting Protocols  
in Open Environments

Spotting Weaknesses  
& Boosting Efficiency

Testing Transaction  
Frequency & Volume
