Antitrust Policy

All project meetings are subject to the Linux Foundation Antitrust Policy.
The following topics must not be discussed:

- Price-sensitive information

- Actual or projected changes in production, output, capacity or inventories

- Matters relating to bids, prospective bids, or bid policies

- Matters relating to actual or potential individual suppliers that might influence the business conduct of firms toward such suppliers

- Matters relating to actual or potential customers that might have the effect of influencing the business conduct of firms toward such customers

- Current or projected costs of procurement, development or manufacture of any product

- Market shares for any product or for all products

- Confidential or otherwise sensitive business plans or strategy

Meeting Notice

- FINOS Project leads are responsible for observing the FINOS guidelines for running project meetings. Project maintainers can find additional resources in the FINOS Maintainers Cheatsheet.

- All participants in FINOS project meetings are subject to the LF Antitrust Policy, the FINOS Community Code of Conduct and all other FINOS policies.

- FINOS meetings involve participation by industry competitors, and it is the intention of FINOS and the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws. Please contact legal@finos.org with any questions.

- FINOS project meetings may be recorded for use solely by the FINOS team for administration purposes. In very limited instances, and with explicit approval, recordings may be made more widely available.
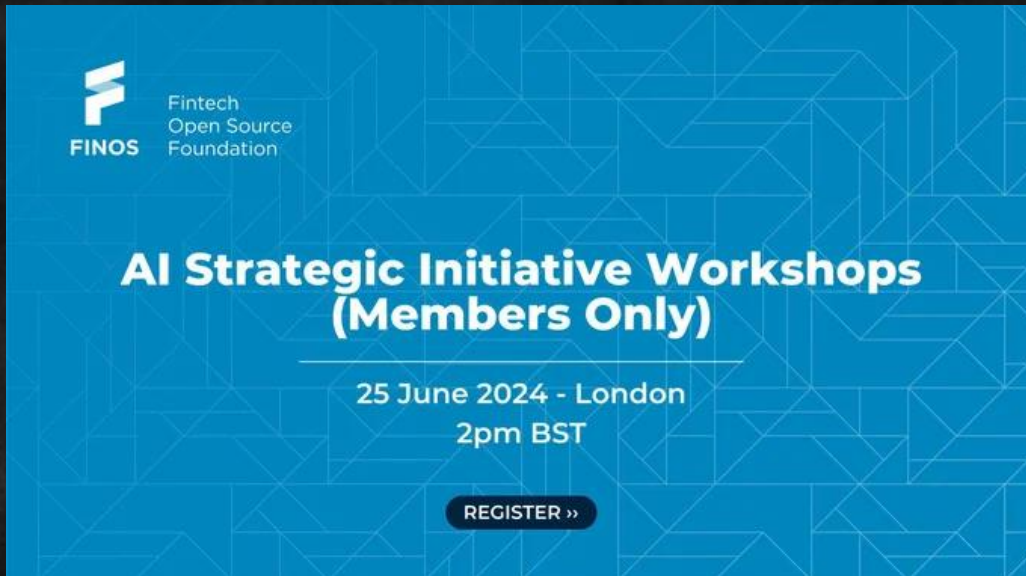

Agenda

- Announcements & Events

- Neural Interfacing

- Calls to Action

- AOB

AI Strategic Initiative Workshops

(FINOS Members Only)

June 25

**Red Hat,
Peninsular House,**
London

Come and participate in a design thinking workshop focused on identifying areas of collaboration around building FSI focused benchmarks, data contribution frameworks, open datasets, MLOps, and other infrastructure to support the potential development of an Open Source LLM for Financial Services.

Following this, will be the working session replacing the bi-weekly SIG call.

OSFF London

June 26

Park Plaza Westminster, London

The only conference dedicated to driving collaboration and innovation in financial services through open source software and standards.

We bring together experts across financial services, technology, and open source to engage our community in stimulating and thought-provoking conversations about how to best (and safely) leverage open source software to solve industry challenges.

#ACCELERATE RegTech Global 2024

June 25
8.30 am – 12.30 pm

Downer Room,
Australia House,
London

PROTECTING PEOPLE **#ACCELERATE RegTechGlobal**

Global Regulators | Institutions | RegTechs | SupTechs | Technology firms | Government

#Consumerprotection #Cyber #FinCrime #Gen Ai #Data

25 June - London | 8.30am to 12.30pm

SUPPORTED BY Commonwealth Bank

RegTech THE REGTECH ASSOCIATION

Our 2024 themes will centre around "Protecting People" and topics for this year include:

Cyber/Scams/Fraud	Financial Crime	Applications using Generative AI
Data & Privacy		ESG

OSFF New York

Sept 30 & Oct 1

New York Marriott Marquis,
New York City

The only conference dedicated to driving collaboration and innovation in financial services through open source software and standards.

We bring together experts across financial services, technology, and open source to engage our community in stimulating and thought-provoking conversations about how to best (and safely) leverage open source software to solve industry challenges.

CALL FOR PROPOSALS NOW OPEN!

Neural Interfacing

Enhanced Security & Authentication

- Biometric Authentication using unique brain waves

- Continuous Authentication

Neural Interfacing

Enhancing Trading & Investment

- Cognitive Load Monitoring

- Behavioural Insights

Neural Interfacing

Accessibility

- Enhanced Interface Accessibility

- Real-time Assistance

Neural Interfacing

Recording Data

Visualising Neural Data

Classify & Recognise

Feedback Response

Want to contribute?

## Join the Discussion on Neural Interfacing

- Share thoughts (lol) and ideas
- Help us shape our experiments
- Dream up your own ideas

Submit a different idea on the GitHub

- A chance to highlight your desired areas of exploration
- Why not seed topics to discuss with peers?
- We are always happy to give projects or work some spotlight
